EDUCATION

VPMS R.Z. Shah College — B.Sc. (*Information Technology*)

June 2012 - March 2015

Applied course:
- Used Linux as a Server (Web, File and Central storage servers).
- Created University Project using PHP + MySQL + HTML5 + CSS3
- Optimized and set up computer systems in IT Labs at college.

S.K. Somaiya, Vidyavihar — *H.S.C (Science)*

June 2010 - March 2012

PROJECTS

EduPort —*A System to maintain attendance for the college.*

Designed EduPort to solve a very common problem in all institutions which was attendance and track records. Functions in EduPort:
- Mark attendance using your phone on intranet/internet.
- Keep records of exam results for students.
- Get information about students/teachers by using the search.
- Students can only view updates posted by teachers
- Logins provided only to teachers for accessing all the records
- And many more functions..
